Dynamic Cable Construction
Rt. 3 Box 3253
Ben Wheeler, Texas 75754

Attention Mickey Redwine:

Subject: Letter of Recommendation

Dear Mickey:

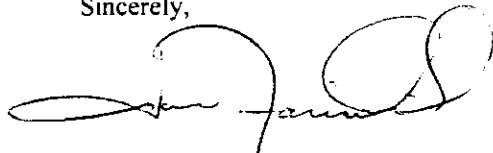

Intermedia Communications Inc., (ICI), would like to take this opportunity to both thank and congratulate Dynamic Cable for the recently successful completion of underground construction for the St. Louis Alternative Access Telecommunications System, in St. Louis, Missouri.

I would like to commend your Organization for their professionalism and relentless commitment to completing the aforementioned Project ten (10) days ahead of the very aggressive completion date. The quality of construction performed by your crews met or exceeded most of my initial expectations. It was the intangible items however, that have left the best impression with me. The quality and neat appearance of your equipment, clean and organized construction staging areas and final restoration, which exceeded all applicable city, county and state requirements, prove that the Dynamic Cable management team are dedicated to maintaining Industry leading standards at all costs.

Your Project Superintendant, Bob Edwards, although fairly inexperienced in the Telecommunications Industry, deserves a great deal of credit for overcoming some very difficult obstacles in order to accomplish the task assigned to him. I look forward to participating on future projects with Mr. Edwards and hope that he will be available to represent Dynamic on similar ventures that may be forthcoming.

As an Engineering representative of Intermedia Communications, I want to once again thank your Organization for a job well done.

Sincerely,

Joey Faircloth
Network OSP Engineer
